

## THREE CUT COLOR FINDER

**Help!** How do I find a color for the three cut beads?

**Answer:** Use the lists below. On the left is the three cut color number – on the right is the seed bead number.

Once, you have found the seed bead number; go to the [index](#). Then look for the color group.

For example: #200 is crystal rainbow. That is #50 in the seed beads. Look under transparent rainbows and find color #50.

**WARNING:** THIS IS FOR COLOR SEARCHES - ONLY!

YOU MUST USE THE "THREE CUT COLOR NUMBERS" FOR ORDERING.

You must use the catalogue & boat arrival notices to find availability.

### 3 CUT NUMBER - SEED BEAD NUMBER
